DME Story

DME is considered one of the Egyptian leading investment companies in the engineering industry. Currently DME is a major shareholder and investor in three of the leading companies across the engineering field:

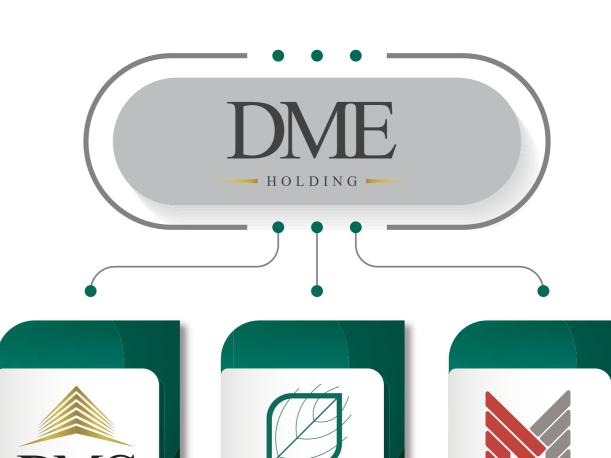

» DMC (General Contracting & Projects Construction)

» CURVE (Landscape Contracting)

» MASADER (Building Material & Interlock Production)

DME is also considered one of the unique groups with vertically integrated approach within the construction and engineering field providing our companies' clients with a superior quality with cost efficiency and value engineering approach based on extensive real estate industry knowledge.

People & team work are the key drivers for growth adding to DME's strong financial capabilities which is considered one of the key drivers of success with investments that exceeds Four Billion EGP in the industry through our companies.

General Contracting Landscape Contracting

CURVE

Building Materials

MASADER

Background

CURVE Landscape was established in 2007. It has grown to be one of the premier landscape contracting companies in Egypt.

We have expanded with strong leadership and a core team of more than 450 professionals supported by a seasonal team exceeding 750 personnel. Being a value based organization: we strongly believe that we can't grow and prosper without adhering to our core values and following our missions to fulfill our dreams.

We invest in our people, as we consider our team the corner stone of our foundation and success. With the unique experiences of each member, we have reached where we stand today and with their continuous dedication, we strive to become the leading landscape contracting company in the market.

CURVE Landscape was registered with the Egyptian Federation for Construction and Building Contractors (EFCBC).

Curve Scope

Softscape

Softscape is concerned with supplying and planting all types of plants, such as lawn areas, ground covers, shrubs, trees, palms and palm likes. We have a vast experience in the Softscape field, where our nursery gives us the opportunity to provide our clients with international standard plants that suit their needs and are suitable for every construction site.

Hardscape

CURVE constructs Hardscape including all types of paved areas; including streets, sidewalks, plazas, villa entrances and patios from various materials including marble and granite, concrete pavers, asphalt, stabilized soil, etc.

Irrigation Networks

CURVE supplies and installs the irrigation networks for all softscape elements, supplied by the world's leading irrigation networks suppliers. We also include, fittings, valves and emitters whether they are sprinklers, bubblers or drippers for all irrigation systems and systems range.

Lighting Networks

Using Landscape Lighting for multiple purposes is an edge at CURVE. According to the projects designers lighting networks are not only used as light sources but also for security as well as emphasizing certain aspects of the design to create a beautiful & enjoyable portrait for the project's residents, CURVE supplies and installs all the lighting components starting with the wiring and control panels to the lighting units – whether they are lighting poles of pollards or up lights and earth spikes, etc. as well as lighting for the buildings exteriors and water features.

Water Features

CURVE has a vast experience in water features construction, with all its entails while being customized to each and every project. Water features include traditional swimming pools with various systems, such as over flow, skimmer or horizon pools. CURVE also provides artificial lakes, lagoons and up to 12 meter high waterfalls. On a smaller scale, simple shallow water channels and regular fountains or imported marble fountains are a part of our services offered.

Sports Facilities

Sports Facilities are more than just the surface visible to the end user. The construction requires having a suitable and leveled sub-base and base, the necessary drainage installation, in addition to choosing from a wide range of final surfacing options available. CURVE has an extensive experience in the field of sports courts construction.

Outdoor Furniture & Signage

CURVE fabricates, imports, supplies and installs outdoor furniture and signages made from various materials including wood, metals and polymers. CURVE range of products inlclude garden benches, trash canisters, wooden pergolas, gazebos and decks that CURVE are build on site according to a design that is made specially to match the clients' requirments.

Road Paving

Curve has developed mutual cooperation agreements with some of the biggest road paving contractors in Egypt to execute road paving works within the assigned landscape projects.
